David,

Happy Mother's Day !

Actually, this is not a gift, in spite of appearances. These are the Borys Files. I have kept them for a year and am tempted to chuck them out. But what is our policy ? What are you doing with the old Czumer stuff, etc. ? For amusement, in one of your many free moments, you might want to look through this carefully packed pile of c..p and decide whether any of it is worth keeping and where and how.

If this idea is not to your liking, let me know and I will haul it back out. I can always use it in my garden to make the veggies grow better.

Signed,

X

LOST YOUTH

You know what we used to do at Bishop's when I was young and stupid ? When we got a lot of phone calls, we used to pick up the phone and say "Not here. ---- off !" Then one time the principal phoned up....

SAGE ADVICE

Before I comment on the changes to my Foreword, let me tell you a story. Some time ago a group of players led by a man named Gimpel decided to do a production of Hamlet, in the Polish countryside. But not having a good knowledge of the play, they posted bills as follows: "Hamlet" von Shakespeare, verbessert von Gimpel. You have done a Gimpel on my Foreword.

Special Feature: BOURGEOIS NATIONALISM ALIVE TODAY

Yuri Melnichuk, "Crossbreed from a Sheepfold Overseas"

A most ostentatious crossbreed is now being raised among the Ukrainian bourgeois nationalists, due to their crossbreeding with the German fascists and revanchists as well as American imperialists. There are special sheepfolds for such a cross breed, where they are fattened up and let multiply. One such pen in Edmonton, Alberta, Canada, where a crossbreed of a nationalistic-Catholic variety has been brought together, even has a name of its own - Ukrainski Visti (Ukrainian News).

It has been established that boundless greed and irrepressible blatancy are the most typical attributes of this breed. Waking up in the morning, such a tumy, on hearing that its master has already breakfasted begins to bleat most dolefully:

For you I stand knee-deep in muck  
And chew the straw my masters chuck

Advocates of Treason (Kiev, 1980)

Where are They Now ?

In Trenton, Pennsylvania, Iaroslav Hrobak lives with a wife and three children in a quiet suburban area. But beneath this peaceful exterior lurks a dark and foreboding past. Thirty-seven years ago, in the Carpathian forests, Hrobak donned a Nazi uniform, and shouting "I hate Ukrainians !" set fire to three villages near Kostopil. Not satisfied with this, the bloodthirsty swine then took an axe and decapitated 235 honest Soviet citizens. American people ! This bourgeois nationalist, this viper, this hissing rattlesnake is living among you as an honest citizen, trying to conceal his murky, bloodstained deeds. You can find him at 2334 Kennedy Plaza (Ph. 344-8762) between 2 and 5.30pm, but make it quick because he goes on holiday next week.

## ПОВІДОМЛЕННЯ

ECHO BLASTS BULLETIN !

The Ukrainian Echo, paper of the moderate centre, has twice blasted the CIUS newsletter in recent issues; first for inviting Polish researcher Dr. Pawel Korzec and, worse still, actually reporting what he said at his lecture, and second, for awarding John Jaworsky a grant to translate Danylo Shumuk's KGB-processed memoirs into English. The CIUS, hotbead of subversion, has yet

to respond. However, they are rumored to be inviting a more acceptable speaker next month. As a conciliatory gesture, Iaroslav Stetsko will give a paper entitled "Get Them Out From Under the Bed and Shoot Them !"

Beztaktnist is a monthly production of concentrated libel with ostensible connections to the CIUS. All contributions are welcomed.
